## HALAMAN PERSETUJUAN

Judul Skripsi : Sistem Informasi Reservasi Barber Berbasis Web  
Studi Kasus: Mark the Barber Yogyakarta  
Nama Mahasiswa : HARTADI KARTANDA  
N I M : 72120027  
Matakuliah : Skripsi  
Kode : SI4046  
Semester : Genap  
Tahun Akademik : 2015/2016

Telah diperiksa dan disetujui di Yogyakarta,  
Pada tanggal 17 Juni 2016

Dosen Pembimbing I

HALIM BUDI SANTOSO, S.Kom., MEd., M.T

Dosen Pembimbing II

BEBI SUTEDIA D. G., S.Kom., M.M.

HALAMAN PENGESAHAN

SISTEM INFORMASI RESERVASI BARBER BERBASIS WEB  
STUDI KASUS: MARK THE BARBER YOGYAKARTA

Oleh: HARTADI KARTANDA / 72120027

Dipertahankan di depan Dewan Penguji Skripsi  
Program Studi Sistem Informasi Fakultas Teknologi Informasi  
Universitas Kristen Duta Wacana - Yogyakarta  
Dan dinyatakan diterima untuk memenuhi salah satu syarat memperoleh gelar  
Sarjana Komputer  
pada tanggal  
16 Juni 2016

Yogyakarta, 17 Juni 2016  
Mengesahkan,

Dewan Penguji:

1. BUDI SUTEDJO D. O., S.Kom., M.M.
2. HALIM BUDI SANTOSO, S.Kom., MBA., MT
3. Drs. JONG JEK SIANG, M.Sc.
4. ERICK KURNILAWAN, S.Kom., M.Kom.

Dekan

(Drs. SUSANTO, S.Kom., M.T.)

Ketua Program Studi

(Drs. JONG JEK SIANG, M.Sc.)

### PERNYATAAN KEASLIAN SKRIPSI

Saya menyatakan dengan sesungguhnya bahwa skripsi dengan judul:

**Sistem Informasi Reservasi Barber Berbasis Web  
Studi Kasus: Mark the Barber Yogyakarta**

yang saya kerjakan untuk melengkapi sebagian persyaratan menjadi Sarjana Komputer pada pendidikan Sarjana Program Studi Sistem Informasi Fakultas Teknologi Informasi Universitas Kristen Duta Wacana, bukan merupakan tiruan atau duplikasi dari skripsi kesarjanaan di lingkungan Universitas Kristen Duta Wacana maupun di Perguruan Tinggi atau instansi manapun, kecuali bagian yang sumber informasinya dicantumkan sebagaimana mestinya.

Jika dikemudian hari didapati bahwa hasil skripsi ini adalah hasil plagiasi atau tiruan dari skripsi lain, saya bersedia dikenai sanksi yakni pencabutan gelar kesarjanaan saya.

Yogyakarta, 17 Juni 2016

## KATA PENGANTAR

Segala puji dan syukur penulis panjatkan kehadirat Allah Tuhan Yang Maha Esa, karen berkat limpahan rahmat dan karuniaNya akhirnya penulis dapat menyelesaikan tugas akhir guna memenuhi persyaratan dalam menempuh ujian akhir pada Fakultas Teknologi Informasi Program Sstudi Sistem Informasi Universitas Kristen Duta Wacana. Dalam laporan karya ilmiah ini, dibahas mengenai Sistem Informasi Reservasi Barber Berbasis *Web Responsive* (Studi Kasus Mark The Barber Yogyakarta). Hasil dari penelitian dianalisis berdasarkan teori yang ada untuk kemudian dibuat kesimpulan. Dalam menyelesaikan tugas akhir ini banyak sekali bimbingan, saran dan bantuan yang penulis terima dari berbagai pihak. Untuk itu penulis mengucapkan terima kasih dan penghargaan yang sebesar-besarnya terutama kepada:

1. Tuhan Yang Maha Esa.
2. Kedua orang tua penulis, Bapak Iman Kartanda dan Ibu Aslia yang selalu memberi dukungan dan doa kepada penulis dalam menyelesaikan tugas akhir ini.
3. Halim Budi Santoso, S.Kom., MBA, M.T. selaku Dosen Pembimbing I yang selalu memberikan masukan dan arahan kepada penulis dalam menyelesaikan tugas akhir ini.
4. Budi Sutedjo Dharma Oetomo, S.Kom., M.M. selaku Dosen Pembimbing II yang selalu memberi masukan dan arahan kepada penulis dalam menyelesaikan tugas akhir ini.
5. Mark The Barber Yogyakarta yang bersedia memberikan penulis kesempatan sebagai tempat studi kasus tugas akhir.
6. Aristian Wibowo, Darma Cahyadi, Volney, dan teman-teman penulis yang selalu menemani, membantu, mengingatkan, dan memberikan dukungan kepada penulis dalam menyelesaikan tugas akhir ini.
7. Semua pihak yang membantu penulis atas selesainya laporan ini.

Akhir kata, penulis meminta maaf kepada seluruh pihak apabila ada sikap yang berkenan selama penyelesaian tugas akhir ini. Semoga tugas ini dapat memberikan manfaat sebesar-besarnya kepada semua pihak.

Yogyakarta, 10 Juni 2016

Hartadi Kartanda  
Penulis

## ABSTRAK

Mark The Barber Yogyakarta yang merupakan perusahaan yang bergerak di bidang cukur rambut, saat ini membutuhkan media promosi yang dapat diakses secara *online* oleh masyarakat luas khususnya Yogyakarta agar mendapatkan informasi tentang layanan yang dimiliki oleh Mark The Barber Yogyakarta.

Pembangunan sistem informasi reservasi pada suatu *barbershop* saat ini sangat diperlukan guna efisien dan efektifitas *barbershop* dalam melayani *customer*. Sistem informasi reservasi *barber* ini mencakup segala informasi mengenai daftar antrian *barberman*, pemesanan tempat, dan informasi-informasi lain. Dengan terus berkembangnya teknologi internet, *web* menjadi suatu alat bantu yang tidak hanya mampu menyediakan informasi, tetapi juga mampu untuk mengolah informasi. Dengan menggunakan *web*, daya jangkau layanan suatu *barbershop* akan sangat luas dan juga memudahkan *customer* tidak perlu datang langsung ke *barbershop* untuk pemesanan tempat.

Proses pengolahan informasi pada sistem informasi reservasi *barber* dengan berbasis *web* menjadi media informasi yang memudahkan *customer* dalam pemesanan tempat. Hadirnya sistem informasi reservasi *barber* pada Mark The Barber Yogyakarta diharapkan dapat memberikan sarana dan kemudahan kepada masyarakat untuk melakukan reservasi tempat secara *online*.

(**Kata kunci:** sistem informasi reservasi *barber*, reservasi *barber*, *barber*, *barbershop*)

# BAB 1

## PENDAHULUAN

### 1.1. Latar Belakang Masalah

Perkembangan teknologi yang sangat pesat menuntut kita untuk mengenal dan memanfaatkan teknologi. Saat ini, baik individu maupun perusahaan serta lembaga-lembaga membutuhkan teknologi dalam melakukan aktivitas sehari-hari. Teknologi sendiri dapat meringankan beban pekerjaan manusia karena sistem terkomputerisasi dapat memudahkan dan mempercepat pekerjaan manusia. Selain itu, sistem terkomputerisasi dapat mengurangi kesalahan-kesalahan yang mungkin terjadi.

Lokasi yang menjadi studi kasus adalah Mark The Barber Yogyakarta yang beralamat di Jalan Kaliurang, gang Pandega Karya, no. 290, Depok, Kecamatan Sleman, Daerah Istimewa Yogyakarta. Mark The Barber merupakan sebuah tempat penyedia jasa potong atau cukur rambut pria yang berada di Yogyakarta. Saat ini, Mark The Barber memiliki lima layanan, yaitu *Premium Barber Cut*, *Dry Barber Cut*, *Kids Premium Barber Cut*, *Traditional Shaving*, dan *Hair Styling*. Mark The Barber memiliki empat orang *barberman* yang siap melayani *customer* baik yang melakukan reservasi maupun yang datang secara langsung.

Proses reservasi di Mark The Barber saat ini masih dilakukan secara manual. Kasir Mark masih memanfaatkan media sosial, *sms* maupun aplikasi pesan singkat dalam proses reservasi. *Customer* yang ingin melakukan reservasi wajib memberikan informasi data diri ke kasir melalui komunikasi media sosial atau *sms*.

Masalah yang dihadapi oleh Mark The Barber adalah waktu reservasi serta jumlah *customer* yang melakukan reservasi. Pihak *barbershop* sulit memprioritaskan *customer* yang melakukan reservasi dan *customer* yang datang tanpa melakukan reservasi terlebih dahulu. Hal ini fatal, karena akan menimbulkan ketidaknyamanan pada *customer* baik yang datang secara langsung maupun yang melakukan reservasi.

Untuk menyelesaikan masalah di atas, maka akan dibangun sebuah sistem informasi yang dapat membantu menangani masalah reservasi pada Mark The Barber. Sistem ini akan mempermudah dalam mencatat data reservasi *customer* serta memiliki batasan waktu reservasi sehingga dapat membantu pihak *barbershop* dalam memprioritaskan *customer*.

### 1.2. Rumusan Masalah

Permasalahan yang menjadi fokus dalam penelitian ini adalah:

- a. Bagaimana penerapan metode reservasi pada *barbershop*?

### 1.3. Batasan Masalah

Berdasarkan rumusan masalah di atas, maka batasan-batasan masalah dalam penelitian ini adalah:

- a. Sistem dibangun untuk proses reservasi online.
- b. Sistem hanya ditujukan untuk *customer* yang telah mendaftar sebagai member.
- c. Sistem hanya melayani reservasi dengan batasan kuota *barberman* yang telah ditentukan.
- d. Reservasi dikatakan gagal apabila *customer* tidak berada di *barbershop* dalam waktu selambat-lambatnya 15 menit dari waktu yang telah ditentukan.

### 1.4. Spesifikasi Sistem

Spesifikasi sistem yang dibangun terbagi dalam 5 hal, yaitu:

1. Spesifikasi aplikasi/ program
  - a. Program mampu mengelola data *customer*, karyawan, *treatment* (layanan), produk, reservasi, gaji *barberman*, libur *barberman*, dan lembur *barberman*.
  - b. Program mampu menyajikan informasi antrian reservasi berdasarkan *barberman*.
  - c. Program mampu menyajikan (rekomendasi) jenis-jenis potongan rambut yang sedang tren.
  - d. Program mampu menampilkan informasi gaji *barberman*.

- e. Program mampu menutup sistem reservasi.
  - f. Program mampu membatasi waktu dan kuota reservasi.
  - g. Program mampu mengelola data pengeluaran *barbershop*.
2. Spesifikasi perangkat lunak
    - a. Sistem Operasi Windows 7 Professional Service Pack 1.
    - b. XAMPP Win32-5.6.12-0-VC11 lengkap dengan PHP.
    - c. Sublime Text 3.
    - d. Browser: Maxthon Cloud Browser (Rekomendasi), Chrome, Mozilla Fire Fox.
  3. Spesifikasi perangkat keras
    - a. Intel Core 2 Quad Processor Q8300 (4M Cache, 2.50 GHz, 1333 MHz FSB).
    - b. RAM 2GB.
    - c. HDD 80GB.
    - d. VGA Inter HD Inside.
    - e. Monitor, resolusi 1024x768.
    - f. *Keyboard dan Mouse*.
  4. Spesifikasi kecerdasan pembangun
    - a. Kemampuan dalam penggunaan bahasa pemrograman PHP dan SQL.
    - b. Memahami istilah-istilah dalam bahasa pemrograman berbasis web.
    - c. Kemampuan menggunakan aplikasi pengolahan data dan kata untuk membuat laporan dan mendukung analisis data.
  5. Spesifikasi kecerdasan pengguna aplikasi
    - a. Mampu mengoperasikan komputer dan mengakses internet.
    - b. Mampu menggunakan *web browser*.
    - c. Memahami istilah-istilah umum dalam aplikasi *web*.

### **1.5. Tujuan dan Manfaat Penelitian**

Penelitian pada kasus reservasi Mark The Barber ini bertujuan untuk:

1. Membangun dan menghasilkan sebuah sistem yang dapat membantu proses bisnis dan penggajian di Mark The Barber, Yogyakarta.

2. Meningkatkan pelayanan *barber* dan meningkatkan keuntungan *barber* dengan bertambahnya pelanggan yang melakukan reservasi pada saat hari libur atau waktu tertentu.

### 1.6. Metodologi Penelitian

Dalam melakukan penelitian ini, penulis mempergunakan beberapa metode dalam proses pengumpulan data, antara lain:

- a. Wawancara

Suatu bentuk metode riset dengan mengajukan beberapa pertanyaan terhadap orang yang mempunyai peran penting pada objek penelitian penulis. Penulis melakukan wawancara secara langsung kepada pihak-pihak yang berkaitan (pemilik) dengan sistem reservasi Mark The Barber.

- b. Observasi

Proses pengamatan objek penelitian secara langsung di lapangan pada saat melakukan riset. Penulis melakukan pengamatan langsung ke perusahaan tersebut untuk mendapatkan segala sesuatu yang ada kaitannya dengan kegiatan pelayanan untuk mengetahui masalah yang terjadi.

- c. Studi Pustaka

Metode ini dilakukan dengan mengumpulkan data melalui berbagai referensi buku, internet dan catatan kuliah yang digunakan sebagai acuan terhadap kasus yang ditemui.

- d. Analisis Sistem

Analisis sistem yang dilakukan meliputi analisis kebutuhan fungsional dan kebutuhan non fungsional.

- e. Perancangan Sistem

Perancangan sistem meliputi perancangan basis data, perancangan proses (UML), perancangan struktur menu dan perancangan antarmuka.

- f. Implementasi

Mengimplementasikan hasil perancangan sistem menjadi sebuah aplikasi dengan cara *coding* dan *testing*.

### **1.7. Sistematika Penulisan**

Penulisan laporan tugas akhir ini akan disusun dalam lima bab dengan sistematika penulisan sebagai berikut:

Bab 1 Pendahuluan berfungsi untuk memberikan gambaran umum tentang penelitian. Bab ini berisi sub-bab latar belakang, rumusan masalah, batasan masalah, spesifikasi sistem, tujuan penelitian, metode penelitian dan sistematika penulisan laporan. Selanjutnya pada Bab 2 terdiri dari tinjauan pustaka dan landasan teori yang membahas konsep-konsep yang diperlukan sebagai dasar penelitian tugas akhir.

Bab 3 merupakan bab perancangan sistem yang akan membahas bagaimana sumber-sumber teori dari bab sebelumnya diimplementasikan pada sistem yang akan dibuat dan rancangan kerja sistem serta alur atau proses-proses yang digunakan dalam pembuatan sistem. Bab 4 merupakan bab penerapan sistem berdasarkan rancangan dan proses-proses yang digunakan dalam pembuatan sistem dari perancangan sistem pada bab 3.

Bab terakhir yaitu bab 5 berisi kesimpulan dari analisis yang dilakukan serta hasil penelitiannya, serta saran-saran untuk kegiatan riset ke depan. Kesimpulan juga berisi jawaban dari pertanyaan penelitian yang dinyatakan dalam rumusan masalah.

## **BAB 5**

### **PENUTUP**

#### **5.1. Kesimpulan**

Berdasarkan hasil penelitian dan analisa pada sistem yang dibangun, maka dapat disimpulkan beberapa hal sebagai berikut:

- a. Sistem Informasi Reservasi *Barbershop* Berbasis *Web Responsive* dapat membantu Mark The Barber dalam mencatat data reservasi.
- b. Fitur batasan jam dan kuota dapat mencegah *overload* reservasi sehingga dapat memprioritaskan *customer* yang datang secara langsung.
- c. Fitur filter ketersediaan *barberman* membantu mengantisipasi terjadinya kesalahan pemilihan *barberman* pada saat reservasi.

#### **5.2. Saran**

Keterbatasan kemampuan yang dimiliki oleh pembangun. Sistem Informasi *Barbershop* masih memiliki kekurangan dan kelemahan. Adapun saran pengembangan sistem yang dibuat antara lain:

- a. Sistem ini dapat dikembangkan dengan basis *mobile* sehingga memudahkan *customer* dalam mengakses sistem kapan saja.
- b. Sistem dapat ditambahkan fitur notifikasi jadwal reservasi *customer* melalui *e-mail* atau dalam sistem berbasis *mobile*.
- c. Sistem dapat diberi fasilitas belanja produk secara online melalui *website barbershop*.
